

Project time frame: Spring 2009

To prospective clients of Bob Youngs (Robert D. Youngs Contractor),

*We truly enjoyed the experience of working with Bob Youngs and his sons as they repaired extensive water damage at our home. Bob is easy to communicate with and thorough in his work. He patiently researches problems that come up such as the sump pump requirements needed for our project. Bob is also willing to defer to others who have expertise in specific areas which he did when a moisture barrier was needed under our home. We also appreciated his creative solutions to problems such as finding a way to preserve all the brick work in the front of our home while carefully repairing the damaged walls behind it. It is also worth mentioning that Bob has great teamwork with his two sons. It was fun to have them working as a team at our home.*

*Bob was referred to us by a friend and we would refer Bob to others without hesitation!*
