

January 2014

My husband and I hired Mr. Bob Youngs to fix a huge leak that took place above one of the main door sliders and the leak has caused so much damage to our walls, and the inside structure of our home.

- Mr. Youngs gave us an estimate and he stuck to his estimate.
- He finished everything within budget and on time.
- All the work that he did was done with a permit and according to code
- He matched everything so perfectly that you could not tell that there was any construction done to the area.
- We were very pleased with his work and with the level of professionalism that he conducted the job with.
- We do not hesitate to recommend him to anyone without any reservation.
