

September 26, 2011

Hello Bob,

We just wanted to let you know how pleased we are with the beautiful new master bathroom. We have wanted to renovate that room for ten years and could never come up with a solution that allowed us to get a double vanity in there without sacrificing too much of the bedroom space. *Your design idea to solve our space problem was inspired*, and it has allowed us to create this fantastic, spacious and functional new bath. The extra square footage has made the room modern, livable, and a wonderful addition to the house in both style and resale value. We couldn't be more pleased with it.

*Thanks to you and your sons for your professionalism and amazing attention to detail. We truly enjoyed working with all of you on this project and hope to engage your services again in the future. This has been our best contractor experience ever, and we have done multiple remodels in the 17 years we have owned our home. Our best wishes and thanks to you all!*

Cheers,

*C& W S*
